# Клиническая практика

# Преимущества программы

- Все предметы по специальности преподают только медсестры
- 11 преподавателей медсестер имеют степень PhD
- Есть программа наставничества
- Наставники только медсестры
- Содержание программы ориентировано на формирование компетенций
- Много международных договоров

# Применяемые методы инновационного обучения

- Анализ случаев
- Ролевая игра
- Симуляция
- Объективный Структурированный Клинический Экзамен (англ. OSCE – objective structured clinical examination)

# Дальнейшие возможности обучения

Магистерская  
Программа

*Клиническое Сестринское дело*

*Расширенная сестринская  
практика*

PhD  
Программа

## **Программа обучения должна соответствовать требованиям**

- Установлена ли необходимость в этой программе на региональном / национальном / Европейском уровне?
- Определяя эту необходимость, приняты ли во внимание консультации с соответствующими заинтересованными сторонами: работодателями, специалистами и учреждениями, работающими в определенной области? С академической стороны, является ли программа достаточно интересной?
- Установлены ли контрольные параметры?
