Year in Review: Level of Activity

Completed - 18 Nov 2021

Year in Review: Level of Activity

Summarize the efforts your chapter made this year. These can be but are not limited to:

- **Professional development events**
- **Education outreach activities**
- **Virtual engagement**

If your chapter was unable to operate because of COVID, please indicate this below.

Our Chapter have just been created about month ago.

We have elected the Officers, selected the Chapter Advisor and made our logo, web page (<https://www.sechenov.ru/univers/structure/other/studencheskie-yacheyki-obshchestv-spie-i-optica/>), paid for the Zoom account.

We have visited the 1st and 2nd course students and told them about our Chapter.

We have volunteered at the Sechenov University International Biomedical Summit 2021 (<https://sechenov-sibs.confreg.org/>) at 9-10 November, 2021 and told the participants about our Chapter.

Total estimated number of people impacted by all of your events this year.

650

Year in Review: Photos

Completed - 18 Nov 2021

Please attach any photos from this year's events. If you do not have any photos, you can simply ignore the "mark as complete" and move on to the next task.

What are your plans for the coming year?

Completed - 18 Nov 2021

What are your plans for the coming year?

How large of a management grant will you require in 2022?

FYI:

Management grants are for routine chapter maintenance. These funds are typically used to:

- Buy food for chapter meetings
- Create signage/supplies to market the chapter on campus

\$600 - should support chapters meeting monthly

Which opportunities do you intend to use in 2022?

[Examples of what these programs support can be found here.](#)

Responses Selected:

Special Program Grant

Traveling Lecturer

Outreach Initiatives with Education Tools (Optics Suitcase)

IONS grant for multi-day conference

How was your chapter impacted in 2021?

Was your chapter impacted by the pandemic, lack of funding, lack of time...something else? Were there programs you were unable to host because of these challenges?

As we have just been created, we have a lot of plans for the next year!

What can Optica do to better support your endeavors next year?

As we have just been created about month ago, we are now having a great plan for the next year to make a 3-4 day length conference next November with the IONS Grant, invite a lecturer with a Traveling Lecturer Grant, and make a nice and interesting workshop to attract more people in our scientific research projects with the Special Program Grant.

We would like to make a conference based on SIBS (<https://sechenov-sibs.confreg.org/>) at Sechenov University. With the IONS Grant we will be possible to make Oral Presentations Sessions as well as Young Scientists Poster Sessions, Professional Development Workshops and Special Chapter Introduction Event. We will also put our roll-up and make a stand for the attracting of the visitors at the conference. We will use the facilities of the University and make a great conference!

As for the Traveling Lecturer Program, we received positive reply from Prof. Igor Meglinski and plan to invite him to give a lecture.

We plan to use our Special Program Grant to make a special event about Day of Light where we will make a fruitful presentation and quiz for the visitors, show video about day of light that was made by us and make an installation of how the light influences the real biomedical science.

As a new Chapter, we really need the support to show the maximum of our possibilities and we believe we will do our best to expand the role of light in the modern science!
